Product Page Intro	Looking for a natural, sustainable, and effective exfoliant? Look no further than our Almond (Sweet) Shells, Exfoliant (Irradiated)! This unique exfoliant is made from cracked almond shells, which are a by-product of the almond oil production process. By using almond shells, we are able to reduce waste and create a product that is good for the skin and the environment. Almond shells have been used for centuries as a natural exfoliator. The coarse texture helps to remove dead skin cells and reveal fresh, glowing skin underneath. They are also a good source of vitamins and minerals, which can help to nourish and protect the skin. It is also chemical-free, which means that it is gentle on the skin. To learn more about our Almond (Sweet) Shells, Exfoliant (Irradiated), get a quote or order a sample, get in touch today!
