Product Page Intro	Derived from sweet almonds through chemical-free hydrogenation, Almond (Sweet) Wax lends its rich history to a modern world seeking natural alternatives. Once harvested, the almonds are crushed, releasing their precious oils. The wax is then extracted and carefully processed, resulting in a pure and sustainable product with a melting point of approximately 65 degrees. Almond wax boasts impressive technical attributes. It is a mainstay of stability in formulations, making it a versatile ingredient suitable for various applications, from lip care products and hair waxes to face masks. Rich in vitamins, it also acts as a good stabiliser in oil-water solutions and a strong protective agent. Moreover, it serves as an excellent carrier wax, ideal for blending with other oils, particularly essentials. Request a quote or sample today and transform your products, embracing tradition in a modern world.
