Product Page Intro	There are no limits with Argan Oil as it is an incredibly versatile product! Sourced from various women's cooperatives in Morocco to produce a high grade oil, the Argan nut is harvested both using the Argan tree itself and the local goats, who climb the tree to consume the fruit but luckily the nuts remaining are collected by local women. The kernels are then split and the nuts are gently cold pressed to deliver a highly functional, ingredient. We introduced this lightly Deodorised grade (our most popular grade) to keep the benefits of the oil but remove the smell. Formulate with our premium Argan Oil for amazing results. Contact us for a quote or order a sample now and embrace the magic of Argan Oil today!
Product Status	Commercial Blend.
