Extraction process

Cold-pressed extraction is a method used to extract natural oils from various plant-based sources. It involves applying mechanical pressure to the source material without the use of heat or chemicals, resulting in a pure and unrefined oil.

The attached information is considered to be correct. Please be aware that detail can change and we encourage clients to update their technical records regularly via www.oand3.com/products/. The information is not and should not be considered a guarantee or warranty, or a part of our contractual or other legal obligations. It is the ultimate responsibility of the client to pre-approve & assess the safety and suitability of the listed ingredient before use in any final formulations. We encourage carrying out additional tests if necessary. The information is not to be disclosed to others, reproduced or transmitted in whole or in part without permission from O&3.

Skin Benefits

Cold Pressed Organic Borage Seed Oil 20% GLA provides moisturization and rejuvenation to the skin. It helps to hydrate, nourish, and promote a youthful appearance. The oil's high gamma-linolenic acid (GLA) content contributes to its moisturising and rejuvenating properties. Incorporate Cold Pressed Organic Borage Seed Oil 20% GLA into your skincare formulations for its nourishing and rejuvenating benefits.

Functionality

Anti-Aging

Packed with antioxidants, it helps fight free radicals and reduce the signs of ageing. It promotes the production of collagen, improving skin elasticity and firmness, and diminishing the appearance of fine lines and wrinkles.

Easily-Absorbed

Quickly absorbs into the skin without leaving a greasy residue. Lightweight and ensures fast penetration, delivering essential nutrients and hydration for a smooth and nourished complexion.

Regenerative

Promotes the regeneration of skin cells, aiding in the healing of wounds, scars, and skin damage. It helps accelerate the skin's natural renewal process, leading to a smoother and more youthful appearance.

Hair Benefits

Borage Seed Oil with 20% GLA (Gamma-Linolenic Acid) is a cold-pressed organic variant that offers excellent benefits for hair care. GLA is an omega-6 fatty acid known for its anti-inflammatory properties, which can help soothe scalp inflammation and reduce conditions like dandruff or scalp irritation. Borage Seed Oil nourishes and Moisturises the hair, promoting shine, softness, and overall hair health. This oil also strengthens the hair strands, reduces breakage, and supports healthy hair growth. Incorporate Borage Seed Oil with 20% GLA into your hair care routine to address scalp inflammation and enjoy Revitalised and healthier-looking hair.

Anti-Inflammatory

Powerful anti-inflammatory properties help soothe and calm irritated skin, reducing redness and inflammation, whilst providing relief from discomfort and promoting a balanced complexion for healthier-looking skin.

Moisturising & Hydrating

Deeply moisturising, helping to hydrate and nourish the skin and hair. It forms a protective barrier, preventing moisture loss and leaving the skin and hair feeling soft and supple.
