Skin Benefits

Organic Unrefined Cocoa Butter offers the same moisturising and nourishing properties as conventional unrefined cocoa butter but with the added benefit of being organically sourced. It is commonly used in lip balms, body butters, moisturisers, lotions, soaps, hair care products, cosmetics, massage oils, and bath products. The butter has a rich and chocolatey aroma that adds a pleasant scent to formulations. Organic Unrefined Cocoa Butter is a natural emollient that helps soften and smooth the skin. It provides a protective barrier that locks in moisture and helps prevent moisture loss. The butter also contains antioxidants that help protect the skin from oxidative stress and signs of aging. Its creamy texture adds richness and indulgence to cosmetic and personal care products.

Hair Benefits

Organic Unrefined Cocoa Butter can provide moisturising benefits to the hair and scalp. Its emollient properties help soften and condition the hair, reducing dryness and improving manageability. Additionally, Organic Unrefined Cocoa Butter can help protect the hair from environmental damage and moisture loss. It can be incorporated into hair care products such as conditioners, leave-in treatments, and hair masks to enhance moisture retention and improve hair texture.

Functionality

Easily-Absorbed

Quickly absorbs into the skin without leaving a greasy residue. Lightweight and ensures fast penetration, delivering essential nutrients and hydration for a smooth and nourished complexion.

Moisturising & Hydrating

Deeply moisturising, helping to hydrate and nourish the skin and hair. It forms a protective barrier, preventing moisture loss and leaving the skin and hair feeling soft and supple.

Healing & Soothing

With its anti-inflammatory properties, it soothes irritated and inflamed skin. It aids in the healing process, making it beneficial for conditions such as acne, eczema, and rosacea.
