Extraction process

Cold-pressed extraction is a method used to extract natural oils from various plant-based sources. It involves applying mechanical pressure to the source material without the use of heat or chemicals, resulting in a pure and unrefined oil.

The attached information is considered to be correct. Please be aware that detail can change and we encourage clients to update their technical records regularly via www.oand3.com/products/.

It is the ultimate responsibility of the client to pre-approve & assess the safety and suitability of the listed ingredient before use in any final formulations. We encourage carrying out additional tests if necessary. The information is not to be disclosed to others, reproduced or transmitted in whole or in part without permission from O&3.

Skin Benefits

Grapeseed Oil, Cold Pressed, is known for its lightweight and moisturising properties, making it suitable for a wide range of skincare products. It absorbs easily into the skin, providing hydration without a greasy residue. The oil's nourishing properties help keep the skin soft and supple. Grapeseed Oil, Cold Pressed, is often used in facial oils, moisturisers, body lotions, and soaps to promote overall skin health.

Functionality

Anti-Aging

Packed with antioxidants, it helps fight free radicals and reduce the signs of ageing. It promotes the production of collagen, improving skin elasticity and firmness, and diminishing the appearance of fine lines and wrinkles.

Easily-Absorbed

Quickly absorbs into the skin without leaving a greasy residue. Lightweight and ensures fast penetration, delivering essential nutrients and hydration for a smooth and nourished complexion.

Moisturising & Hydrating

Deeply moisturising, helping to hydrate and nourish the skin and hair. It forms a protective barrier, preventing moisture loss and leaving the skin and hair feeling soft and supple.

Hair Benefits

Grapeseed Oil, Cold Pressed, is lightweight and easily absorbed, making it an ideal oil for hair care products. It can help moisturise and condition the hair, leaving it soft and manageable. The oil's nourishing properties can also help improve the appearance of dry and damaged hair. Grapeseed Oil, Cold Pressed, is often used in hair oils, leave-in conditioners, and serums to enhance shine, reduce frizz, and promote overall hair health.

Anti-Inflammatory

Powerful anti-inflammatory properties help soothe and calm irritated skin, reducing redness and inflammation, whilst providing relief from discomfort and promoting a balanced complexion for healthier-looking skin.

Emollient

Softens and smooths the skin, creating a protective barrier that locks in moisture. It is particularly beneficial for dry, rough, and chapped skin, providing deep hydration and improving the skin's texture.

Skin Tightening

Promotes skin elasticity and firmness, reducing the appearance of wrinkles. It helps maintain a youthful and lifted look by supporting collagen production, giving the skin a tighter and more toned feel.
