Product Page Intro	Unearth the captivating allure of Jasmine, Water Organic (Hydrolat), with a rich history dating back centuries. In ancient civilisations in Persia and India, jasmine was revered for its soothing and aromatic qualities. The fragrant distillation process involves capturing the flower's essence in the form of a hydrolat, which is prized for its gentle nature and abundant benefits. It is a natural toner, restoring the skin's pH balance and promoting a youthful, radiant complexion. Its hydrating qualities quench dry skin, leaving it supple and refreshed and its alluring floral scent not only delights the senses but also has a calming effect, making it perfect for aromatherapy. Elevate products with this exceptional ingredient, infusing them with the essence of tradition and modern functionality. Request a quote or secure a sample now!
