Skin Benefits

MCT Oil (Medium-Chain Triglycerides) / Coconut Oil is a versatile oil used in a variety of personal care products. It has a neutral aroma and a lightweight texture, making it suitable for use in massage oils, moisturisers, creams, lotions, hair care products, cosmetics, and bath products. MCT / Coconut Oil is moisturising and emollient, helping to soften and smooth the skin. It is often used as a carrier oil for essential oils and as a hair conditioning agent. Additionally, it can be used as a makeup remover due to its gentle yet effective cleansing properties.

Functionality

Anti-Inflammatory

Powerful anti-inflammatory properties help soothe and calm irritated skin, reducing redness and inflammation, whilst providing relief from discomfort and promoting a balanced complexion for healthier-looking skin.

Easily-Absorbed

Quickly absorbs into the skin without leaving a greasy residue. Lightweight and ensures fast penetration, delivering essential nutrients and hydration for a smooth and nourished complexion.

Moisturising & Hydrating

Deeply moisturising, helping to hydrate and nourish the skin and hair. It forms a protective barrier, preventing moisture loss and leaving the skin and hair feeling soft and supple.

Hair Benefits

MCT Oil (Medium-Chain Triglycerides) / Coconut Oil can provide lightweight moisture to the hair without weighing it down. Its conditioning properties help to soften and smooth the hair, reducing frizz and improving manageability. Additionally, MCT / Coconut Oil can be used as a carrier oil for other hair care ingredients, enhancing their effectiveness. It can be incorporated into hair care products such as moisturisers, serums, hair oils, and leave-in treatments to nourish and hydrate the hair strands.

Cleansing

Acts as a natural cleanser, effectively removing dirt, impurities, and excess oil from the skin and hair. It helps keep pores clean and clear, reducing the risk of acne and promoting a fresh, revitalised appearance.

Emollient

Softens and smooths the skin, creating a protective barrier that locks in moisture. It is particularly beneficial for dry, rough, and chapped skin, providing deep hydration and improving the skin's texture.
