### Extraction process

Refining is an extraction method that purifies oils by removing impurities and undesirable elements. It includes techniques such as degumming, neutralisation, bleaching, and deodorisation to enhance the quality, stability, and versatility of the oil for various applications.

### Skin Benefits

Refined Meadowfoam Seed Oil has a mild aroma, extracted from the seeds of the meadowfoam plant. It has moisturising and rejuvenating properties, helping lock in moisture and promote a radiant complexion. The oil is commonly used in moisturisers, serums, body oils, and facial oils to provide hydration and protection, leaving the skin feeling soft and rejuvenated.

### Hair Benefits

Refined Meadowfoam Seed Oil can contribute to a moisturising and rejuvenating hair care routine. Its moisturising properties can help improve the condition of the hair, reducing dryness and promoting overall hair health. Incorporating Refined Meadowfoam Seed Oil into hair oils, serums, and treatments can provide hydration and nourishment, leaving the hair feeling soft, smooth, and Revitalised.

## Functionality

### Anti-Aging

Packed with antioxidants, it helps fight free radicals and reduce the signs of ageing. It promotes the production of collagen, improving skin elasticity and firmness, and diminishing the appearance of fine lines and wrinkles.

### Emollient

Softens and smooths the skin, creating a protective barrier that locks in moisture. It is particularly beneficial for dry, rough, and chapped skin, providing deep hydration and improving the skin's texture.

### Easily-Absorbed

Quickly absorbs into the skin without leaving a greasy residue. Lightweight and ensures fast penetration, delivering essential nutrients and hydration for a smooth and nourished complexion.

### Moisturising & Hydrating

Deeply moisturising, helping to hydrate and nourish the skin and hair. It forms a protective barrier, preventing moisture loss and leaving the skin and hair feeling soft and supple.
