Skin Benefits

Organic rose water offers the same benefits as conventional rose water. Its organic production ensures that it is free from synthetic pesticides or fertilisers, making it suitable for organic and natural formulations. Rose water provides soothing and hydrating properties for the skin. It can be used as a facial mist, toner, or spritzer to refresh the skin, balance pH, and enhance a sense of well-being.

Hair Benefits

Organic rose water can be used in hair care products to provide hydration and a pleasant aroma. It can be added to hair mists, conditioners, or styling products to refresh the hair and promote a healthy scalp.

Functionality

Moisturising & Hydrating

Deeply moisturising, helping to hydrate and nourish the skin and hair. It forms a protective barrier, preventing moisture loss and leaving the skin and hair feeling soft and supple.
