# **Extraction process**

Cold-pressed extraction is a method used to extract natural oils from various plant-based sources. It involves applying mechanical pressure to the source material without the use of heat or chemicals, resulting in a pure and unrefined oil.

# **Skin Benefits**

Safflower high linoleic oil provides excellent moisturization and nourishment to the skin. It helps to soothe inflammation, promote skin elasticity, and enhance the natural radiance of the complexion.

# **Hair Benefits**

Safflower high linoleic oil can be used in hair care products to moisturise and condition the hair. It helps to reduce frizz, improve manageability, and enhance the overall health of the hair strands.

# **Functionality**

## **Anti-Aging**

Packed with antioxidants, it helps fight free radicals and reduce the signs of ageing. It promotes the production of collagen, improving skin elasticity and firmness, and diminishing the appearance of fine lines and wrinkles.

#### **Easily-Absorbed**

Quickly absorbs into the skin without leaving a greasy residue. Lightweight and ensures fast penetration, delivering essential nutrients and hydration for a smooth and nourished complexion.

#### **Moisturising & Hydrating**

Deeply moisturising, helping to hydrate and nourish the skin and hair. It forms a protective barrier, preventing moisture loss and leaving the skin and hair feeling soft and supple.

#### **Anti-Inflammatory**

Powerful anti-inflammatory properties help soothe and calm irritated skin, reducing redness and inflammation, whilst providing relief from discomfort and promoting a balanced complexion for healthier-looking skin.

#### **Emollient**

Softens and smooths the skin, creating a protective barrier that locks in moisture. It is particularly beneficial for dry, rough, and chapped skin, providing deep hydration and improving the skin's texture.

#### **Skin Tightening**

Promotes skin elasticity and firmness, reducing the appearance of wrinkles. It helps maintain a youthful and lifted look by supporting collagen production, giving the skin a tighter and more toned feel.
